# LIVES LOST BY THE HUNDRED IN EARTHQUAKE

City of Valparaiso, Chili, Reported to Have Been Wiped Out, the Ruins Catching Fire, with Appalling Loss of Life.

#### ENTIRE WEST COAST OF SOUTH AMERICA SHAKEN.

Only Meager Cable Dispatches Received as Yet from Different Points, but All Indicate Disaster to Be Widespread and Terrible.

There is grave reason to fear that the city of Valparaiso, Chili, on the Pacific coast of South America, has been destroyed by an earthquake and fire. The latest report is that portions of the city were burning all night and that hundreds of bodies were buried in the ruins. An earlier report said that the city had been visited by a disaster as great as that which overwhelmed San Francisco.

Although intermittent cable service was obtainable all day with South American ports, nothing definite or reassuring could be secured riman and the Standard on inserests from Valparaiso. What news did percolate through came by roundabout, are named as the heaviest winners. routes and was largely made up of conjectures.
